

Google Enterprise Contract

Contract Benefits

- Aggressive discounts on all GCP, G Suite, and Chrome Browser support services
- Ability for Westwind/Google to offer spot discounts for certain requirements
- Quick and easy contract modification to add future Google technology and services
- Decentralized ordering and management allows DOE organizations to independently procure and manage Google services
- Facilitates Google's ability to offer computing and personnel resources in support of DOE in times of national disaster or crisis (i.e. COVID-19 research credits)

Cost Savings

- GCP discounts of 19% (compute, AI, ML, etc.), 28% (storage), and 41% (Egress) during Base Years; increased discounts in Option Years
- Egress waiver delivers free egress up to 15% of each site's monthly spend and 41% discount for egress beyond waiver amount
- Up to 75% discount on G Suite pricing (pricing dependant on G Suite version and quantity)
- 20%+ discount for Chrome Browser support
- Easy access to Google Professional Services, training, and ATO support
- Includes Google's "Enterprise Subscription" offering, which allows Google to provide a fixed-price for specific GCP workloads

Contract Summary

Authorized Users

All DOE Federal organizations, including National Laboratories, Power Administrations/ Authorities, Federal Energy Regulatory Commission (FERC), and all DOE contractors, including Management and Operating (M&O) contractors, are eligible to place orders under this AC.
